CLINICAL STUDIES

As for now, the swift development of Sino-Sci is mostly owe to significant deep efforts in clinics.

Some innovation have encouraged an increase in clinical trials supporting the safety and biomedical validity of Sino-Sci nutraceutical ones.

With collaboration of world' s top medical institute, research centers, universities and enterprise at national levels, supported by clinical studies, Sino-Sci no doubt the best.

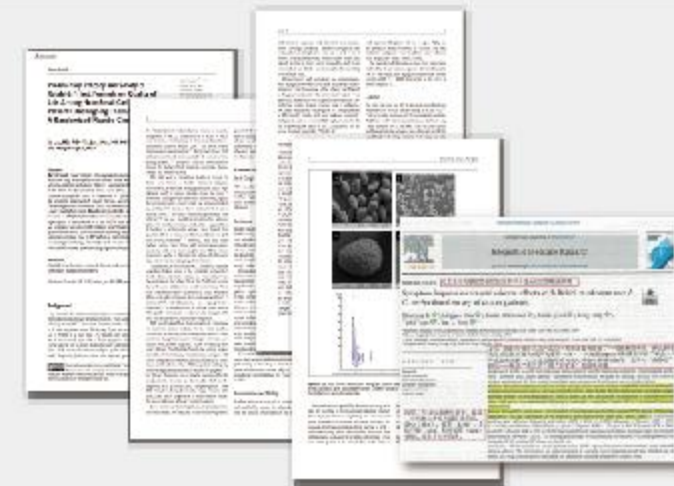

● Memorial Sloan Kettering Cancer Center

One of the world' s most respected comprehensive centers devoted exclusively to cancer, we have been recognized as one of the top two cancer hospitals in the country by U.S. News & World Report for more than 30 years.

● The World' s Top-level Clinical Collaboration In Ganoderma Lucidum

Sino-Sci is perfectly corresponding to MSK core philosophy of 'Ending Cancer For Life', we utilize strong scientific strength of 'natural herb miracle function', 100% safe, no sides effect to adjuvant treatment of cancer patients, and carried out clinical studies since 2019.

● Sino-Sci Clinics Published on SCI

Cause of the correct philosophy of 'Science Brings Health', and swift process both of Sino-Sci and MSK, the period clinical research results were written up and published by the researchers in SCI professional journal of oncology all the world.

● Sino-Sci Supplement Available in Pharmacy

The Sino-Sci featured supplements, which were jointly designed, reviewed and finalized by MSK doctors and pharmacy director, have successfully entered into MSK pharmacy. American citizens could obtain them with doctor' s prescription.
